Speech From Throne Regarded As an Adroit Refusal of Further Concessions.

Constitutional Democrats Want Amnesty, Make Demand Through Speaker of Lower Honse.

St. Petersburg, May 11, 11:45 a. m .-The impression left by yesterday's historical events is on the whole optimstic. Even the radical papers assume a rather hopeful tone. The Rech, organ of the Constitutional Democrats, and now the most powerful paper in Russia, while not concealing its disappointment at the fact that the expected amnesty was not granted, on the other hand expresses its satisfaction that the emperor did not use the word "autocracy." It regards his majesty's speech as an adroit refusal to grant any further concessions, leaving the new fundamental law as the platform of the government, adding:
"But the policy of marking time while events are marching so rapidly really

retreat." The Constitutional Democrats, how ever, are in nowise dismayed at the prospect of having to continue the struggle. It is already apparent that they intend to nail the flag of a constitutional monarchy to their masthead stitutional monarchy to their masthead but their first efforts will be directed to forcing general political amnesty from the unwilling hands of the em-peror. The deliverance of the political prisoners and those who have suffered for freedom's cause is now a passion with the masses, and it is difficult to see how the government will be able to resist.

The central committee of the Constitutional Democrats is working out a reply to the speech of the throne. The principal points will be amnesty and equality of political and civil rights. But a faction is insisting on a demand for the abolition of the council of the empire. An attempt will be cll of the empire. An attempt will be made to come to an agreement with the peasants, who are drawing up an independent reply. Their chief demands are amnesty, the reorganization of la-bor laws, the reorganization of the Their chief demands army, the disbanding of the Cossacks, the separation of church and state, a general extension of the schools and equal rights for all nationalities.

COUNCIL OF EMPIRE OPENS. .

St. Petersburg, May 11, 6:30 p. m.— the third act in the great drama of Russian parliamentarism, the formal opening of the recognized council of the empire or upper house of the empire or upper house of parliament, took place at 2 o'clock this afternoon in the hall of the nobles in the Winter palace. The pomp and ceremony characteristic of the old Russian official life, the absence of which at the opening meeting of the popular lower house of parliament in the Tauride palace yesterday was significant of the new spirit in Russian affairs, found vent in the convocation of the council empire, which, with half the forms the connecting link between the new and the old systems.

THE TABAH QUESTIONS WILL NOT BE COMPROMISED

Constantinople, May 11.—Tewfik Pasha, the foreign minister, called at the British embassy yesterday and made proposals in regard to the Tabah questions which Ambassador O'Connor unhesitatingly rejected. The pasha was informed that any compromise suggestions were quite inadmissible and that nothing less than absolute compliance with the British demands would prevent drastic action. The ambassador also warned the minister that time was running short and compelled him to be under no misapprehension in regard to the determination of Great regard to the determination of Great Britain to enforce the Turkish evacua-tion of Egyptian territory on the Si-nai peninsula and a joint delimitation of the frontier.

Move To Combine Salt Lake City and County

Meeting Held In Mayor Thompson's Office With Civic League Committee to Consider the Presentation of That Proposition to the Next Legislature—About Cleaning of the Public Streets.

en up the long discused proposition of combining Salt Lake City and county, to effect a saving in salary lists, and to reduce the city council of Salt Lake from 15 members to 5 members, each of whom will be put on a good salary, according to the program. Then the council will be always in session and ready to do city's business, according to the proposed plan, and the members will have fewer political relatives and friends to furnish with positions at the city's expense. The ultimate object in view is the securing of money for use in making Salt Lake beautiful.

The reason for the activity of the league in the matter, is that at present it is a whole lot easier to make plans for a city beautiful than to find city money that isn't in use in the long salary lists and other administrative expenses. To loosen funds for improvements, it has been considered how best to trim the present uses of money. The first proposition that came up was to get a freer city council, that is freer sympathy with the general plan, and 111 o'clock, and lasted an hour.
